How about this:

WorkBook is an integrated, adaptable business management system that helps you and your employees make better business decisions based on knowledge about projects and finances. WorkBook cooperates and works together with Microsoft Dynamics software, automating and streamlining business processes that help you drive your business to success.

The **'Blog'** can be a fantastic interactive place to include formal and informal information. The blog feature is available for:

- Company blog – sharing information regarding new employees or the Christmas Party
- Job blog – sharing information regarding job details or how to solve an important issue
- Customer blog - sharing information regarding a customer signing a new contract
- Supplier blog - sharing information regarding a better product that they are now retailing

You know how a lot of information is being sent by email - emails that might have important information regarding your customer, supplier, project or just internal information within your company.

With the blog feature, we offer WorkBook users the possibility to access this important information and knowledge sharing from within your business system.
