WorkBook Software A/S (Denmark) and HD SaaS Announce Partnership

Washington DC (August 2010) – WORKBOOK SOFTWARE A/S and HD SaaS announce partnership in offering WorkBook project management for Microsoft Dynamics as Software as a Service.

As of August 2010 **HD SaaS** has been granted the rights to transfer WORKBOOK SOFTWARE A/S's project management software to SaaS and resell this service in EMEA.

WorkBook Software A/S Project management software for Microsoft Dynamics primarily targets mid-size to large single and multi site advertising agency and services and in principle any installation varying from a few users per site to very large installations. Altogether this provides unprecedented ability to scale and manage advertising agencies and project-oriented companies.

The WorkBook software is delivered with a complete Work Model, which in detail documents and describes all business flows and business areas within an advertising agency through an intuitive web interface.

“We are very excited about the partnership with WORKBOOK SOFTWARE A/S as their product perfectly fits in the portfolio of SaaS services provided by HD SaaS. By signing this agreement we will be able to provide WorkBook project management for Microsoft Dynamics as SaaS to our partner channel and also to current and future customers of WORKBOOK SOFTWARE A/S. We are confident that these are great news for the industry, as SaaS solutions are more easily affordable and provide flexible usage”, says Didzis Simis from HD SaaS.

“We have worked **closely with in the region** to engage with the most suitable Dynamics resellers in the Baltic and EMEA. The partnership between WORKBOOK SOFTWARE A/S and HD SaaS represents a strong foundation to achieve significant footprint and traction in the market in both Baltic and EMEA.

Our overall presence in the Baltic and EMEA region is now very impressive”, says Henrik Skov Pedersen CCO of WORKBOOK SOFTWARE A/S.

Please contact HD SaaS or WORKBOOK SOFTWARE A/S for further information.

About WORKBOOK SOFTWARE A/S

WorkBook Software A/S was founded in 2000 with Headquarters in Copenhagen, Denmark, and a Development Center in Saigon, Vietnam

WorkBook is a specialist in developing systems for project driven organisations with tight integration to business systems like Microsoft Dynamics and other Microsoft platforms. Our system handle all working related processes - from CRM and new businesses, project and resource handling, mileage allowance, expenses, time registration, document handling, invoicing, accounting and management reports.

WorkBook Software A/S has 72% marketshare in the MARCOM segment in Denmark

About HD SaaS

HD SaaS is innovative Software as a Service solution delivery platform, currently offering a full portfolio of SaaS services for business management, unified enterprise communication, business intelligence, desktop virtualization and infrastructure optimization.

Compared to traditional on-premise software implementation, HD SaaS is more easily affordable and provides modular functionality, which makes it easy to extend and reduce the number of users, to add and remove services, and to integrate with other systems.
